

Requirements:

An iOS device (running iOS 15 or later, and with Bluetooth enabled)

A macOS Device (running macOS Monterey and with a T2 Chip or Apple Silicon (M1))

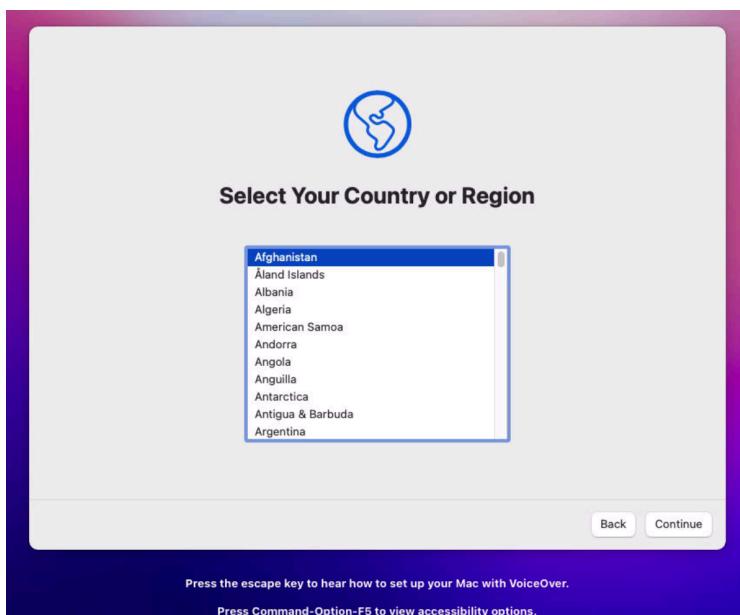

Step 1. Install Apple Configurator on an iPhone running iOS 15 or later.**Step 2.** Open Apple Configurator on your iPhone and log in to your Apple Business Manager (ABM) Account.

Step 3. Allow Camera Access. Tap Ok

Step 4. On the Mac, you would like to add to ABM make sure the following requirements are met.

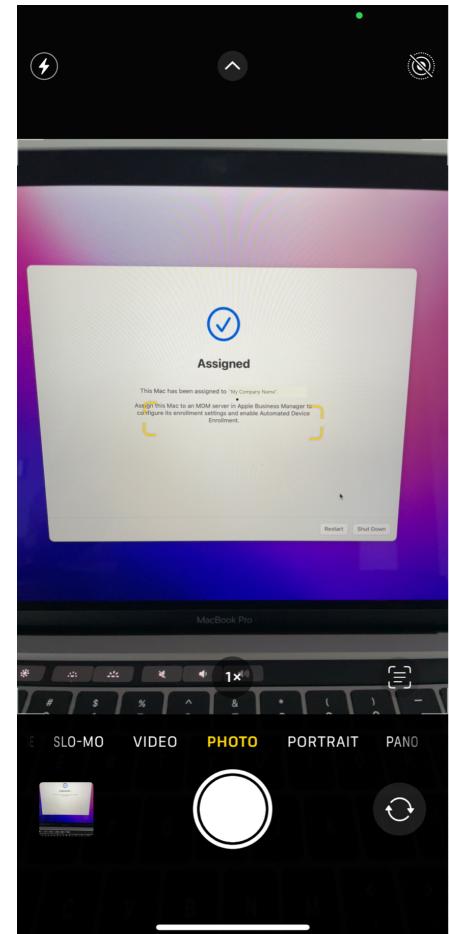

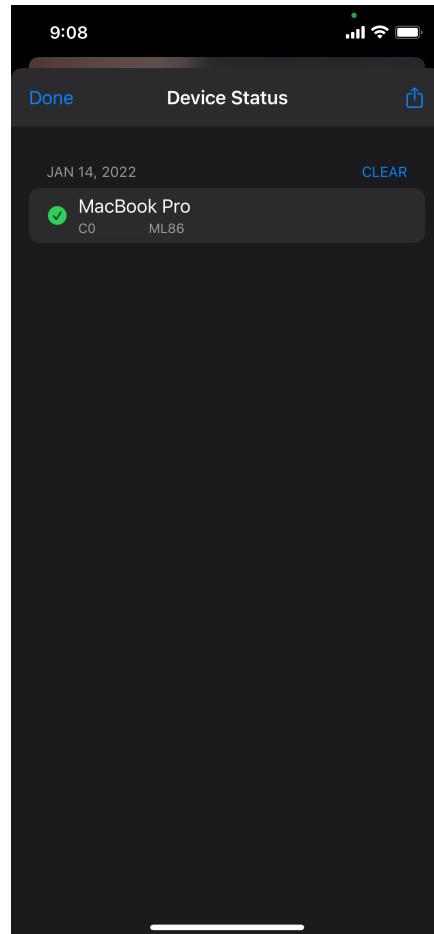

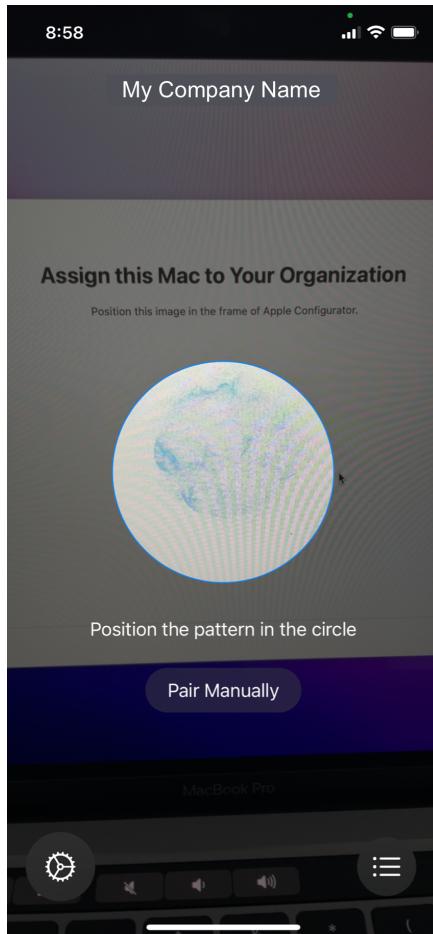

- I. macOS Monterey installed
- II. Mac has not completed the initial Mac setup screens (Apple Setup Assistant)

Step 5. On the Mac Select Your Country or Region and then on bring your iPhone close to the Mac.

Step 6. A QR code will appear scan with the iPhone to add this Mac to your ABM shut down the Mac.

NOTE: Don't proceed with setting up this Mac until you assign it to an MDM in ABM. Once you see the Assigned icon this Mac is now in your ABM ready to be assigned.

Step 7. Login to your ABM.
